

1.

The typical LC connects three courses together. Two courses are in the core or a major/minor, including any associated labs, and the other course is Integrative Seminar (iSeminar), which provides a community space for problem solving.

3.

Each LC is part of a “Highlands Hacienda,” a group of 4-5 LCs that share a common brand and goal to win the “First-Year Competitions.” This structure makes it easy to build relationships, enjoy your first year as Highlands Cowboys / Cowgirls, and continue to make campus connections until you graduate!

4-5 LCs PER HACIENDA

2.

Your LC is determined based on who you are and what you like;

all the same students are in the three courses with you so you make friends with peers who share your interests;

the faculty work together to help you make connections; and a peer mentor and adviser are linked to the LC to support you in your success.
